Since March 41% Claimants under age of 35
Monthly Demographic Data

40% of claims:
- Accommodation / Food Serv.
- Waste Mgmt.
- Agriculture
- Arts & Ent.
- Construction
Concerns About Recovery - NCRN

- (Even Faster) Acceleration of the future of work
- Gig workers and availability of previous ongoing training and upskilling, and opportunities in the future
- Many people still waiting to return to their previous job
- Institutional capacity to be the centers of recovery (fiscal stress at colleges, universities, and other higher education institutions)
- Federal response is bigger in stimulus, smaller in workforce focus
➢ Invite contributed articles
➢ Informed perspectives on policies, programs & strategies
➢ Focus on reengagement of workers, support for economic recovery

➢ Regular sessions covering various topics focused on workforce supports, economic mobility and resilience.

➢ Aim to be conversational. Light presentation, heavy discussion
The Importance of Job Quality in Recovery
