Concerns About Recovery - NCRN

- (Even Faster) Acceleration of the future of work
- Gig workers and availability of previous ongoing training and upskilling, and opportunities in the future
- Many people still waiting to return to their previous job
- Institutional capacity to be the centers of recovery (fiscal stress at colleges, universities, and other higher education institutions)
- Federal response is bigger in stimulus, smaller in workforce focus

ASK US ANYTHING

- Regular sessions covering various topics focused on workforce supports, economic mobility and resilience.
- Aim to be conversational. Light presentation, heavy discussion

- Invite contributed articles
- Informed perspectives on policies, programs & strategies
- Focus on reengagement of workers, support for economic recovery
